

PLANTATION SERVICES NEWS

The Ocala Farm

Muckalee Plantation

Three properties in Lee County have been sold creating a premier hunting, fishing and agricultural property with pecan orchards, irrigated crop fields, and rolling pastures. About half of the assemblage will be managed for quail, deer and turkeys. Improvements include two beautiful homes overlooking the Muckalee Creek, a scenic fishing and canoeing stream.

The sales were handled by Lee Walters, Vice President of Plantation Services.

For the past 23 years, Lee has represented sellers and buyers of similar high-quality properties, large and small.

These sales represent a portion of Plantation Services \$80,000,000 in transactions over the past six months.
